

Meadowlark's
Winter Walk of Lights

Meadowlark's Winter Walk of Lights Design Installation Specifications 2020 Season

9750 Meadowlark Gardens Court

Vienna, VA 22182

Show Description

Meadowlark's Winter Walk of Lights (WWOL) is a walk-thru light show that utilizes $\frac{3}{4}$ of a mile of Meadowlark Botanical Gardens paved trails. It consists of over a million LED lights on trees, custom made frames and a musical light show. In the 2015 season WWOL saw over 70,000 visitors during its six week run. The show runs from mid-November until the first week of January.

General Information

- Meadowlark provides all lights.
- All lights should be tested as they are put up.
- Meadowlark staff will run power to each of the areas being worked on.
- Lamp cord will be provided to run up each trunk.
 - NO more than 20 strands of lights will be connected end to end.
- Lift users are required to be in compliance of all safety standards at all times.
 - Meadowlark staff will provide a brief training manual and hands on instruction to the team prior to installation.
