

ADDENDUM NUMBER THREE (3)

For

Upton Hill Regional Park Upper Parking Lot Expansion

Addendum Date:
December 11, 2018

GENERAL

- A. This addendum shall become part of the Contract Documents and modify the bidding documents including past addenda as indicated below.
 - B. Bidders should acknowledge receipt of this Addendum in the appropriate space on the bid form.
 - C. This Addendum consists of One (1) typed page of corrections / additions to the Contract Documents and One (1) page of plans.
-
1. The plan labels the pool drain pipe to be abandoned. The treatment of this pipe is to be abandoned in-place and cap it at both ends to prevent any subsurface erosion under the parking lot. The only pipe that will receive this treatment is the pool drain pipe between the new connection and whatever doesn't need to be removed for the new SWM structure as identified in the Demo plan (Sheet C7B).
 2. An electrical plan and details (Sheet E-1, dated December 10, 2018) is provided as prepared by AJ Engineers and should address the Pole Foundation Design, Cable sizes and Power feed location.
